#### Observations:

- (i) It has been observed from the teacher's feedback that the revised syllabus of 2018 is worthenough to be part of the curriculum. A very few suggestions have been given by the Teachers and as a follow up action the IQAC have noted down them and assure that they will be taken care of in the next revision proposed to be done in 2021-22.
- (ii) Almost all the students irrespective of the departments have ranked the syllabus they have studied on a high note. They reported that the course contents were easy to follow and they easily collected the learning materials. None of the student has given any comments or suggestions.

In view of the feedback received from Teachers and Students on the Revised Syllabus of 2018, the IQAC has the opinion that the students are very much satisfied with the syllabus they studied and on the other hand, Teachers have asked for no major modifications. However, the task of routine revision of syllabus will be taken up in the next academic year and it will be introduced in the year 2021-2022.
